Presented by the Thrakore Sahib, Wrose Wealth is Double That of the Vanderbilts and Goulds Combined, While making his rapid tour of inspec tion in this country, and ordering rails, engines, Pullman cars of exceptional value and tichness of decoration, steam launches,

ce, for his oriental kingdom, the great Thrakore Sabib was taken ill at the Windson Hotel with extreme nervous exhaustion and prolonged headache, accompanied by spells of dizziness.

Learning of this, and that the physicians called afforded him no relief, Mr. Cannon, the manager of the Scotch Oats Essence Company, of this city, sent to the prince three bottless of the great nervice and tonle Scotch Oats Essence, so popular both here and in Eegland. The prince used but half a bottle, was at once restored to health and vigor, and went on his way relocting.

As he had not even thanked Mr. Cannon, it was supposed that the great man had forgotten such a triffe, but yesterday's steamer from England brought the letter of thanks and a most magnificent piece of oriental lewelry, a rough sketch of which is here given. Its value, being set with magnificent diamonds, must be great. The chasing and other work is a marvel of oriental skill.

It is a curious fact that but few sick people remember their doctors favorably when well, but this is a notable exception. Scotch Oats Essence is unquestionably the most brilliant medical discovery of modern and advanced medical science, and is well worthy of so handsome a token of merit and esteem. > TUESDAY, JANUARY 3, 1888.

These sales have become with us an established institution, occurring annually at the beginning of each new year, and are now looked forward to by the purchasing public with more than ordinary interest. This season our 'Special Sales' open under more auspicious circumstances than ever before, we having a better selected stock, far more spacious accommodations, the best lighted dry goods establishment in the United States,

and many increased facili-

ties for the more rapid transaction of business. Having placed our orders for the major part of these stocks during the past summer, when the prices of cottons and domestics had reached the lowest point during the year, we are enabled to quote prices from five to ten per cent. lower than would be otherwise possible on account of the recent great advance on raw cottons, which naturally af-
